## PROFESSIONAL SUMMARY

Computer Science undergraduate (CGPA 8.1/10, expected 2027) with strong fundamentals in Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS), and REST API design. Shipped 3+ full-stack and Agentic AI applications and completed two certified internships in Java/Spring Boot and Flutter development. Proficient across Java, Python, and JavaScript (React.js, Node.js, Express.js) technology stacks, with hands-on Software Development Life Cycle (SDLC) experience and a fast-learning track record. Seeking an entry-level Software Engineer / Associate Software Engineer role to apply core CS fundamentals and full-stack engineering skills to client-facing enterprise projects.

## PROJECTS

### Job Recommendation System | React.js, Node.js, Express.js, MySQL, Drizzle ORM, JWT 2026

- Engineered a full-stack job platform with secure JWT authentication, resume upload, application tracking, and an admin dashboard spanning 5 core modules.
- Devised and implemented a skill-based matching algorithm computing job-match percentages across 100+ sample job listings, improving recommendation relevance.
- Constructed and normalized the MySQL schema with Drizzle ORM across 6+ tables, reducing duplicate queries and improving data consistency across modules.

### Learning Management System (LMS) | React.js, Node.js, Express.js, MySQL, REST API 2026

- Architected a full-stack LMS supporting 2 user roles (student/instructor) to manage courses, assignments, and real-time progress tracking.
- Created the front end, back end, database schema, and REST APIs end-to-end, then deployed the completed application to production.
- Structured role-based access control to streamline assignment submission and grading workflows, cutting manual grading steps.

### Personal Productivity Assistant (Agentic AI) | Python, LangChain, LangGraph, HTML/CSS/JS 2026

- Developed an intelligent task-reminder agent using Agentic AI (LangChain/LangGraph) that creates, prioritizes, and tracks daily tasks via natural-language interaction.
- Crafted a lightweight web front end to interact with the agent, translating conversational input into structured task-management actions in real time.

## EXPERIENCE

### AICTE EduSkills | Java Full Stack Development Intern Jan 2026 – Mar 2026

- Completed a certified full-stack development program covering Java, Spring Boot, relational databases, and web application development across 8+ weeks of coursework.
- Developed and unit-tested 4+ backend modules in Java and Spring Boot, applying OOP principles and REST API design patterns within an Agile-style, sprint-based curriculum.

### Coreverse | Flutter Development Intern Dec 2024 – Jan 2025

- Delivered 2 cross-platform mobile applications using Flutter and Dart, implementing 10+ UI screens as part of a certified mobile app development internship.
- Implemented state management and debugged app architecture across Android and iOS builds, reducing UI rendering issues during QA cycles.

## CORE SKILLS

**Programming Languages:** Java, Python, C, JavaScript

**Web Technologies:** HTML, CSS, React.js, Node.js, Express.js, Bootstrap, Tailwind CSS

**Databases:** SQL, MySQL, Drizzle ORM

**AI / ML:** Machine Learning Fundamentals, Agentic AI, LangChain, LangGraph

**Tools & Platforms:** Git, GitHub, VS Code, IntelliJ IDEA, Figma, Netlify, Power BI, Flutter/Dart

**Soft Skills:** Problem Solving, Communication, Team Collaboration, Fast Learning

## EDUCATION

### K S Rangasamy College of Technology | B.E., Computer Science and Engineering 2023 – 2027

CGPA: 8.1/10

### Reliance Matriculation Higher Secondary School | HSC 2022 – 2023

Percentage: 74%

## CERTIFICATIONS

- UiPath Professional Automation Developer Associate Certification
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate (Oracle University)
- Web Development Fundamentals – IBM SkillsBuild
- Gemini Certified Student – Google for Education
